

2019 ARGO XTV

Conquest

800 Outfitter 8x8

Model shown with non-production wheels.

The Ultimate Hunting Partner

The 2019 ARGO Conquest 800 Outfitter 8x8 is designed and built for hunters and outdoorsmen who demand the ultimate in size, features and extreme terrain performance from a machine that goes over land, water and snow. It's equipped to comfortably bring a crew, guns and gear to places where others can't, with the promise to haul it all – and the prized trophy – back with ease.

Conquest is built with a larger chassis and footprint than other ARGO recreational models, offering a larger payload and towing capacity. Eight meaty, low-pressure 25-inch tires with steel bead lock rims grip the ground and tread water, enabling the Conquest 8x8 to go where the big game go.

Rivers, lakes and swamps are no barriers thanks to the ARGO one-piece all-terrain amphibious body that floats over water and glides over stumps, snags and wetlands with unmatched stability and control.

Conquest is equipped with the Admiral transmission in the High Torque configuration. High Torque provides the ideal option when the majority of use includes operation in extreme terrain, moving heavy loads, high track use, high altitude or continuous slow-speed oper-

ations. It's capable of reaching speeds of up to 17 mph (27km/h). In High range, a Conquest steers smoothly and in an arc, similar to a pickup truck. In Low range it operates similar to a traditional skid steer vehicle, offering zero-radius turning.

When it comes to powering big loads and six passengers, Conquest flexes its 30-horsepower muscle thanks to the dependable performance of a liquid-cooled 4-stroke V-Twin engine. It's equipped with electronic fuel injection, which means easy starting and automatic air- and temperature-compensation in all climate conditions, including high altitudes.

With 9 inches of ground clearance, Conquest is ready to ride, crawl and climb over the gnarliest terrain. A massive 2,000-pound (816 kg) towing capacity and a rear 2-inch receiver hitch add maximum hauling versatility, while a 7.1-gallon fuel tank means long days of riding without having to worry about filling up. The Conquest XTV comes standard with a front brush-guard and front rack, and is available in either Breakup Country Camo or Shadow Grass Camo.

2019 ARGO XTV

All-Terrain Amphibious Body

Evolved and refined from more than 50 years of amphibious vehicle development, the one-piece high-density polyethylene (HDPE) lower body is ARGO's signature design feature. The smooth and durable underbody floats over potential snags, stumps and outcrops as well as wetlands and water courses, keeping water hazards out while delivering unparalleled stability and control.

ARGO Low Pressure Tires

ARGO low-pressure 25-inch tires are custom engineered with a paddle design for amphibious propulsion through water and optimized traction on the most extreme off-road terrain. As a system they apply just 1.7 psi of ground pressure, dispersing pressure while achieving maximum traction over all surfaces.

Admiral Transmission

At the heart of every ARGO XTV is a fully mechanical transmission that transfers engine power to the wheels on each side of the machine. When the driver turns the handlebars, braking force is applied directly to the output of the appropriate side of the transmission to steer the vehicle.

Conquest features the premium Admiral transmission, which employs a sophisticated gearing system and dual differentials on the output shafts. When steering, the braking force is applied to a steering differential (rather than the output shafts), translating into smoother and gentler steering. It's available in High Torque (HT) configuration, which provides the ideal option when the majority of use includes operation in extreme terrain, moving heavy loads, high track use, high altitude or continuous slow-speed operations. It's capable of reaching speeds of up to 17 mph [27km/h*]

Every ARGO transmission is designed and built by its parent company, Ontario Drive & Gear Limited – the world leader in precision gearing and high performance transmissions – to ensure the best reliability, maintainability and smooth, efficient transfer of power to the ground.

Extended Range

Aurora models feature a large 7.1-Gallon [27 litres] fuel tank that provides hours of continuous operation, allowing owners to go the distance.

Conquest

Load and Towing Capacity

The Conquest XTV is designed and built to haul and tow the most gear that sportsmen and owners demand, with a towing capacity of 2,000 pounds [816 kg]. The load capacity is 1,420 pounds [644 kg] on land and 785 pounds [356 kg] in water. Compared to other ARGO recreational XTVs, Conquest is 9 inches longer, 5 inches wider and 7 inches taller. The two rear bench seats are perpendicular to the chassis, allowing ample occupant space as well as easily accessed space for loading big game.

Ground Clearance

With 9 inches [22.9 cm] of ground clearance, ARGO XTVs are built to tackle the roughest terrain.

2019 ARGO XTV

Conquest

Quiet Muffler

New quiet muffler helps reduce radiated noise from the vehicle, making for a more enjoyable ride for passengers and drivers alike and especially for hunters, who count on the element of surprise.

Steel Dual Bead Lock Rims

Conquest features steel bead lock rims that mechanically lock the tire bead to the rim. With each tire firmly secured to its rim, enables an incredibly low 1.7-psi tire pressure for a smoother, more comfortable ride over rough terrain as well as maximum cornering performance.

Hydraulic Steering Brakes

Every ARGO XTV is equipped with hydraulic steering brakes for powerful, controlled steering in the full range of conditions and terrain. These brakes are activated via the steering wheel to control the power output from the transmission to the wheels on either side of the machine.

Dependable 4-Stroke EFI Engine

Avenger XTVs are powered by a dependable liquid-cooled V-twin 4-stroke gas engine that produces 30 horsepower. It features electronic fuel injection (EFI) for sure starts and automatic air- and temperature-compensation in all climate conditions, including high altitudes.

Dual Rear Entry Steps

Conquest features dual rear entry steps for added convenience.

4500-Pound WARN Winch

Conquest come equipped with a mighty 4500-LB WARN Winch for the ultimate in utility, ease-of-use and durability. The winch is conveniently operated via an on-dash actuator.

Bilge Pump

A built-in bilge pump quickly and effectively evacuates water that enters an ARGO XTV.

Conquest 800 OUTFITTER 8X8

ENGINE

DISPLACEMENT	747 cc
CYLINDER	V-Twin
FUEL SYSTEM	EFI
COOLING	Liquid Cooled
ALTERNATOR OUTPUT (MAX)	60 amp
HP	30HP

STEERING/WHEELS/TIRES

RIMS	Steel Bead Lock
TIRES	Argo XT117 25x12-9
GROUND PRESSURE - TIRES	1.7 psi [13.5 kPa]
GROUND PRESSURE - TRACKS	0.67 psi [4.6 kPa]
GROUND CLEARANCE - TIRES	9.0 in [229 mm]
GROUND CLEARANCE - TRACKS	10.0 in [254 mm]

POWERTRAIN

TRANSMISSION	Admiral
TRANSMISSION OPTION	HT
HD DRIVE BELT	Standard
SERVICE BRAKES	Hydraulic
STEERING BRAKES	Hydraulic
AUTO CHAIN LUBRICATION	Standard

DIMENSIONS/WEIGHT/CAPACITY

LENGTH	128 in [3,251 mm]
WIDTH	65 in [1,651 mm]
HEIGHT	53 in [1,346 mm]
LOAD CAPACITY - LAND	1,420 lb. [644 kg]
LOAD CAPACITY WATER	785 lb. [356 kg]

DIMENSIONS/WEIGHT/CAPACITY - CONTINUED

LOAD CAPACITY - REAR	140 lb. [64 kg]
TOWING CAPACITY	2,000 lb. [907 kg]
WEIGHT	1,815 lb. [823 kg]
FUEL CAPACITY	7.1 US gallons [27 litres]
SEAT CAPACITY	6 Land / 2 Water
FRONT RACK	Standard
SPEED ON LAND (HT)	17 mph [27 km/h]
SPEED ON WATER	3 mph [5 km/h]

FEATURES

BRUSHGUARD	Standard
WINCH	4,500 lb. Warn Winch
SKID PLATE	Standard
BILGE PUMP	Standard
AXLE BEARING EXTENSIONS	Standard
ENTRY STEP	Dual Rear Entry Steps
OPERATING CONDITIONS	All weather, all terrain, -40°F to +104°F [-40°C to +40°C]

COLORS

AVAILABLE COLORS	Breakup Country Camo/ Shadow Grass Camo
