## New Opportunities...

**ARGO is blazing trails to explore new territories across the globe and reach new customers at work, in public service and at play.**

**Building on our best-ever quality record, ARGO introduces a host of proven feature packages to help your customers get more value and maximum utilization from their investment in the world's best off-road vehicles.**

### Productivity Solutions for Commercial / Industrial customers

**The upgraded ARGO 8x8 Centaur:** More comfort, more load carrying and towing capacity and more tools for versatility.

**The ARGO 8x8 XTD:** All the capability of the ARGO 8x8 XTI now running on diesel fuel.

**Tool-carrier solutions:** ARGO's universal mounting system (UMS) is the quick-change solution for heavy-duty add-on equipment.

**Payload carrying and hauling solutions:** Interchangeable cargo boxes and decks plus new 8 wheel amphibious trailers for added capacity.

**Mobile power solutions:** Electrical, pneumatic and hydraulic power sources ready to go, anywhere ARGO goes (available through partner companies).

### Dream Machines for Personal Utility & Recreation

**Hunters & anglers:** The "Ultimate Hunter" package includes Sure Grip gun rack, Mossy Oak Break-Up Infinity® Camo, up to 4,500 lb. (2,040 kg) winch, brushguard and automated chain lubrication system.

**Cabin & estate owners:** Rear cargo liner, 4-wheel and 8-wheel trailers, UMS, sprayer package and track solutions.

**Families & friends:** Seating for 6 passengers on land and 4 on water, outboard motor option, light bar and convertible top with windshield.\*

#### Key ARGO Benefits

- Fully amphibious without vehicle preparation.\*
- Can be used in all seasons.
- Operates in deep mud and over snow.

**For all vehicle configurations, rubber tracks are available for better traction in soft terrain or snow.**

## What's New for the Public Sector?

**ARGO provides easy, versatile solutions for municipal services that make taxpayers' dollars go further!**

ARGO is the multi-purpose, go-anywhere platform that quick-changes into purpose-built roles in minutes. On trails, off-road or on water, ARGO works year-round for public safety and productivity.

Interchangeable packages for municipal services are adaptable right off-the-shelf for 8x8 ARGO 750 HDi, and 8x8 ARGO 700 HD. All packages are engineered to preserve ARGO stability for the safety of operators, crews and passengers. Packages are available through ARGO and/or ARGO partners.

### Rescue/Ambulance package

- Ferno Traverse rescue basket
- Stainless steel frame + tie-ins
- Ferno # 9 stretcher
- Slide-in rail mount for rear loading
- Carabiner attachments for helicopter evacuation
- Light bar for emergency lighting and IV attachment

### Fire Fighting package

- CET pump system and Honda engine
- 300 L (80 gal) water tank
- 280 L (75 gal) water tank with 20 L (5 gal) foam additive for 850 L (225 gal) of firefighting foam
- Light bar, emergency lighting and siren
- Optional 8 wheel trailer with a load capacity of up to 1,400 lb (635 kg) for additional water tanks

### Public Works packages

- Sprayer systems for insect abatement and weed control
- Universal Mounting System (UMS)
- Seating for up to 6 passengers
- Light bar for emergency lighting
- 4-wheel and 8-wheel amphibious cargo trailers
- Outboard motor bracket and snow plough
- Flat deck, cargo box, dump box, utility box,
- Optional power sources through third party suppliers

Stay tuned! ARGO is continuing to work closely with dealers and customers to create even more factory solutions for off-road productivity and versatility.

## Argo 8x8 CENTAUR

### The ARGO 8x8 Centaur for “extreme” productivity

The world's hardest working HD ARGO has evolved to lead a new generation of off-road performance. Field tested in the wild lands of every continent, today's ARGO 8x8 Centaur is proving itself in the most demanding applications for remote work camps, exploration sites and utility lines.

#### MORE POWER

Centaur's liquid-cooled 34 hp (25.3 kW) turbo-diesel engine with high torque Centaurmatic dual-differential transmission produces 10% more power than any other ARGO.

#### LESS MAINTENANCE

- Automatic chain lube system
- Oil-bath drive axles
- Minimal field service!

#### MORE CAPACITY

Now built to handle loads totaling 33% more than previous models, the new Centaur with the 8 wheel trailers delivers as much 3,400 lb. (1,540 kg) of payload – in challenging terrain!

Centaur delivers crews to their jobsite with all the supplies they need to do the whole job.

- Load up to 2,000 lb. (907 kg) onboard
- ARGO 8 wheel trailer loads up to 1,400 lb. (635 kg)
- Tow up to 2,200 lb. (997 kg)

#### MORE TOOLS

Centaur's versatile rear cargo platform sets the stage for customers to easily adapt to changing needs on the worksite, season after season. The new Universal Mounting System (UMS) bolts directly to the vehicle frame for fast installation of ARGO-approved equipment and tools.

Bolt-on platform configurations for:

- Flatbed with optional stakes, hinged sides and tailgate
- Lockable aluminum utility box with shelving
- Electric dump box
- UMS drop-in packages for mobile power and welding
- Maxilift mono-boom crane with outriggers

#### SAFE & SOUND

The strength and stability of the Centaur ensures that crews and passengers are well protected in the field.

- 65" (1,641 mm) width for superior stability
- Low center of gravity
- 3-point seatbelts and padded bench
- Ergonomic steering system
- Additional leg room
- ISO 5700 certified ROPS

## Argo 8x8 750 HDi

### The ARGO 8x8 750 HDi is now available as a “Street Legal” EU EDITION

This new ARGO model features a 30 hp (22 kW) Kohler Aegis LH775 engine and expands our offering of ARGOS which are certified for use on public roads in Europe.

EU certification highlights ARGO reliability and safety with the addition of special road safety oriented features including turn signals, horn, a side mirror, suspension seats, hi-lo beams, trailer hitch mount and 7 pin trailer connection.

As other ARGO models, the 750HDi EU carries up to 6 passengers on land and 4 on water.

Important Note: ARGO 8x8 750 HDi Special Edition comes with exactly the same features as EU EDITION, but is not road approved in any other continent through ARGO.

## Argo 8x8 XT Models

### Next Generation 8x8 ARGO XTI / XTD Models

Re-engineered XTI and XTD models bring ground-breaking technologies together by incorporating the highly successful ARGO 8x8 750 HDi with the field proven design and strength of the ARGO 8X8 Centaur.

Today's 8x8 XTI will be the vehicle of choice for demanding off-road applications. Powered by the liquid cooled 30 hp (22 kW) Kohler Aegis EFI engine with triple-differential ADMIRAL transmission, the new XTI features virtually all of the Centaur's advances\* over previous generations, such as:

- Reduced maintenance: with automatic chain lube system
- High load capacity: up to 1,500 lb. (680 kg) onboard, 2,000 lb. (907 kg) towed
- Expanded versatility: with payload options including flat deck & stakes, utility box, electric dump, ARGO trailer and UMS drop-in packages\*

\* Cargo solutions and other equipment for the ARGO 8x8 Centaur and ARGO 8x8 XT Models are fully interchangeable. Maxilift mono-boom crane and 3-point seatbelts are available only for Centaur.

### XTD Diesel-Powered Workhorse

Diesel is the fuel of choice for remote work sites. Customers can now have all the versatility of the 8x8 XTI in an ARGO that fills up at the same pump as other diesel equipment. The 8x8 XTD features all the upgrades of the new XTI, powered by a 24 hp (17 kW), 1028 cc Kohler/Lombardini diesel engine. Common rail fuel injection with pre-heaters provides sure starts in cold climates.

## Argo 8x8 Frontier EFI

### Great Starts with the New ARGO 8x8 Frontier EFI

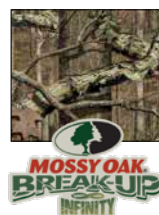

Our most affordable 8x8 ARGO offers new customers a great way to get started with their first ARGO experience! The competitively priced Frontier 8x8 EFI is a hard working entry level machine recommended for light-duty applications in the municipal and fire & rescue sector.

Now equipped with the 23 hp (17 kW) Kohler Command Pro engine with electronic fuel injection, the 8x8 Frontier EFI provides:

- Reliable starts in cold weather
- Superior performance in high altitudes
- Excellent fuel efficiency
- On-board diagnostics

### For "The Ultimate Hunter"

Turn the 8x8 Frontier EFI into a great value, hunting package by including the Mossy Oak Break Up Infinity® camo, the Sure Grip gun rack, 3,500 lb (1,588 kg) power winch, brushguard and other popular accessories.

The new ARGO 8x8 FRONTIER EFI features a Kohler Command Pro engine with electronic fuel injection.

NEW ARGO 8x8 trailer for hauling material or transporting additional equipment.

Lincoln Electric welding equipment attached to an 8 wheel ARGO amphibious trailer via the Universal Mounting System.

ARGO 8x8 Centaur equipped with Maxilift crane and flat bed loading an ARGO 8 wheel trailer.

## **NEW** Kohler 23 hp (17 kW) EFI Engine

ARGO is phasing in the highly successful Kohler Command Pro engine with electronic fuel injection to offer more value for the price conscious ARGO 8x8 entry level buyer.

Now standard on the 8x8 Frontier EFI, more ARGO vehicles will feature the dependability and efficiency of Kohler EFI engines.

### **Dependable**

- Optimized fuel injector and sensor design responds efficiently to any demand for power.
- No-choke starting even in cold weather; when engine is hot or after long periods of storage.
- EFI and maintenance-free valve train minimizes service downtime.

### **Increased Efficiency**

- Advanced oxygen sensor monitors and adjusts air/fuel mixture for optimum efficiency.
- Low fuel consumption allows extended travel range, fewer stops to refuel.

## **NEW** Amphibious ARGO Trailers with UMS (Universal Mounting System) Option

New ARGO trailers allow customers to get the most from their ARGO's great towing power! Modeled on the same body construction as ARGO vehicles, these trailers are built to go anywhere an ARGO goes!

For added utility, 8 wheel trailers are available with full-length skid plates and the Universal Mounting System for ARGO-approved heavy duty tools and power solutions.

- 4-wheel trailer: 600 lb. (272 kg) capacity with 24" (609 mm) or 25" (635 mm) tires.
- 8-wheel trailer: 1,400 lb. (635 kg) capacity with 24" (609 mm) tires.
- 8-wheel trailer: 1,300 lb. (589 kg) capacity with 25" (635 mm) tires.

## **NEW** Mobile Maxilift Crane

The new mobile Maxilift mono-boom crane system can be installed on the ARGO 8x8 Centaur and is able to lift loads weighing as much as 2,870 lb. (1,300 kg) or raise loads to a maximum height of 9' 11" (3,022 mm). It is available with a flat bed platform or custom cargo box.

**Argo** ★★★★★  
**APPROVED**

Interchangeable integrated packages from ARGO make it easy for customers to tailor their ARGO for special applications:

- Brand-name reliability • Engineering support • No safety concerns

## **NEW** Innovative 18" (457 mm) Rubber Track Systems for CENTAUR and XT Models

The latest improvement to ARGO's advanced track systems simplifies track installation and reduces weight. Many years of development and extensive field testing have led to a new design for HD UHMW-PE guides, replacing the previous steel guides in order to achieve a lighter guide system of equal strength and reduced wear.

The new tracks are matched to a new tire design, exclusive to ARGO. Compared to previous 8-ply tires, these tires offer more flexibility to ease track installation, while improving durability and performance.

The HD tracks are available as tandem or quad options also featuring HD hinge lacing, aluminum backing washers and reinforced rims.

NEW tracks featuring HD UHMW-PE guides, HD hinge lacing, reinforced rims and high impact resistant turf tires.

## **NEW** Mobile Power Systems

ARGO has partnered with some of the industry's most respected brands to ensure the highest reliability in power products tailored to meet the needs of your customers. Mobile power solutions from ARGO partners are configured to mount directly to the ARGO's rear cargo deck and are interchangeable with other tools using the Universal Mounting System. Here are some recent examples:

### **CHICAGO PNEUMATIC (CP) HYDRAULIC POWER PACK**

CP hydraulic power packs are available in petrol or diesel driven versions and provide portable power for breakers, cut saws, augers, water pumps, post pounders, pullers and more.

### **VMAC MULTIFUNCTION UNIT**

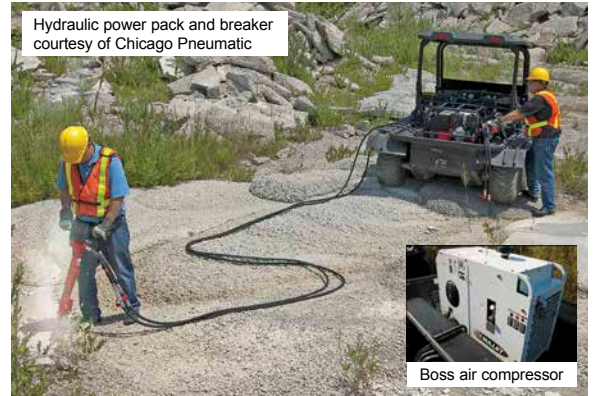

VMAC is an award-winning Canadian company and developer of the RAPTAIR-MF advanced air compressor system. This totally self-contained unit also functions as an AC generator, welder, booster, battery charger and features hydraulic capabilities.

### **LINCOLN ELECTRIC WELDER AND GENERATOR**

Lincoln Electric is the world's leading manufacturer of arc welding and metal cutting technologies.

### **BOSS AIR COMPRESSOR**

BOSS air compressors, welders and generators are used worldwide on leading industrial equipment brands for construction, mining, agriculture and material handling.

Work crews can perform tasks in isolated, off-road locations.

VMAC Multifunction Unit on ARGO 8x8 XTD.

## **NEW** ARGO Hardtop

A new hardtop option offers extra comfort and protection for operators and passengers of all ARGO 8x8 HD and 8x8 Frontier models. The hardtop simply attaches to the optional Roll Over Protective Structure (ROPS).

## **NEW** Spraying Systems

ARGO is working with partners offering a wide range of spraying solutions for insect abatement, sand fly prevention and many other agricultural applications.

Stay tuned for new product releases.

NEW ARGO hardtop provides protection against the elements and greater operator comfort (mounts onto ARGO ROPS).

ARGO is at work throughout the world providing solutions for off-road mobility...

## Proceed with confidence!

The ARGO family of Extreme Terrain Vehicles has earned growing acceptance and utilization in the world's most challenging environments.

ARGO is the vehicle of choice for serious hunters allowing them to go to places others only dream of.

On every continent, ARGO designers, engineers and dealers are working together to turn our growing world of experience into new solutions for off-road mobility such as interchangeable cargo platforms.

- **In Scandinavia:** ARGO is serving remote projects in utilities development.
- **In Russia:** ARGO is being utilized in difficult tundra assignments.
- **In the Faroe Islands, Guam and Romania:** Industrial installations rely on ARGO for fire safety and people transport.
- **In Japan:** ARGO is part of new emergency preparedness plans in the wake of the tsunami.
- **In the Middle East:** ARGO is a vital element in servicing oil fields and police departments.
- **In the UK:** ARGO is gaining popularity amongst hunters.
- **In Canada:** ARGO is helping the energy and mining industries to explore and service northern oil & gas fields and mine sites.
- **In the United States:** Utility crews use ARGO vehicles to maintain isolated tower and pipeline corridors.
