

VICTIM IDENTIFIED IN FATAL UTV ACCIDENT

Sheriff's Office has identified a man killed in a weekend UTV accident as 52-year-old Richard T. Johnson of Rhinelander. The crash also injured a woman. It happened around 10:41 a.m. Saturday.

Head and spine trauma from UTV accidents cost \$1 billion annually, study says.

Severe trauma to the head and spine resulting from UTV accidents are increasing dramatically.

UTV ROLLOVER KILLS OREGON MAN

...was trying to climb a steep hill...then the UTV lost traction and rolled nearly 200 feet down an embankment and into a canal.

Snowmobilers, ATV riders rescued from ice east of city

Members of a Gravenhurst, Ont., family, along with friends from the area, were rescued early Sunday afternoon after being stranded on melting ice.

Trust ARGO For Offroad Safety

- Designed for offroad fire and rescue
- Unmatched rollover resistance
- Personnel protection features
- "Get In" and "Get Out" capability

CEO DIES IN UTV ROLLOVER CRASH

...was driving his Utility Task Vehicle on the trail when he lost control of the road, overcorrected and then rolled the vehicle.

GREAT FALLS MAN DIES AFTER ATV ROLLOVER

Coroner's Office said that 23-year-old Zachary John Wichman died following a four-wheeler rollover in the Little Belt Mountains on Monday from coroner Dick Brown. Wichman was pronounced dead at the hospital.

Wildland UTV Involved in a Rollover

Great Falls has died following a rollover of a wildland firefighting department Wildland Firefighting Terrain Vehicle (UTV) rolled end over end while in route to a small wildland fire.

KCPD OFFICER INJURED IN ATV ROLLOVER WHILE PATROLLING KAUFFMAN STADIUM

...officer was injured when his all-terrain vehicle rolled over while patrolling at Kauffman Stadium. "He was on uneven terrain and lost control," said KCPD public information officer Tye Grant. "He was injured, but will be OK." KCPD Chief Darrell Forte said in a tweet the officer sustained a hand injury.

Rollover Accidents Rate Blamed on Defective Design

Reports of injuries and deaths continue to mount due to the alleged inherent instability of this off-road vehicle... a high center of gravity and narrow wheel base makes a rollover possible even at low speeds.

AITKIN MAN DIES AFTER ATV BREAKS THROUGH ICE OF LAKE

...Minnesota, man died Wednesday after his ATV broke through the ice. The ice on Gun Lake was thick, according to the Aitkin County Sheriff's Office. Minutes after the crash, the body was recovered.

What happens when your vehicle ends up on the lake bottom?

The number of vehicles that have fallen through ice is up this winter, an expensive proposition for victims. Thin ice kindled by unseasonably warm weather.

ARGO

Your First Choice For First Response

Trust the fully amphibious ARGO to take fire and rescue crews wherever they're needed – and get them and their patients home safely!

Designed for reliable offroad fire and rescue

The ARGO 8x8 HDi and Frontier provide a safe means of transportation as well as solid platforms from which to attack a fire, treat a patient or perform a rescue. With interchangeable modules, ARGO can be utilized in all first response situations, improving response times for:

- Emergency medical service • Fire & rescue • Search & rescue • Disaster & HAZMAT response

Unmatched rollover resistance

The ARGO is up to four times less likely to rollover than traditional UTVs. Even when fully loaded with passengers, patients, supplies and tools, ARGO's low center of gravity keeps a sure footing while climbing grades, going over rocks and challenging terrain.

- Payload compartment keeps tool attachments and cargo weights low to the ground
- Triple-differential transmission provides exceptionally smooth steering with traction to all wheels
- Excellent stability on water
- Optional tracks maximize traction on loose soils and snow

Personnel protection features

Equip your ARGO for added protection from offroad hazards and extreme weather.

- Tubular steel ROPS frame available with seat belts for driver and front seat passenger
- 2-person or 4-person hard tops for overhead protection
- Full or half-top canvas enclosures protect against cold, sun, wind, rain
- Rear bench seat roll-bar package with additional seat belts
- All-season safety and comfort with heater, windshield, bilge pump, back-up alarm, fog lamps and more

“Get in” and “Get out” capability

ARGO goes where others can't follow! 8x8 mobility and strong-but-light construction lets rescue crews traverse all types of terrain from rock to muskeg to deep snow and ice

- Choice of rubber tracks can reduce ground pressure to less than a footstep
- Swim or ford water obstacles with no preparation required to enter or exit
- Integral skid plate and high ground clearance prevent undercarriage damage and hang ups
